

## **Annex to UNITAID EB17 Resolution 7 (DNDI)**

### **Clarifications/ Issues to be addressed:**

Notwithstanding other information and clarifications that may be sought as part of the grant agreement and project plan development process, the Secretariat and/or the PRC specifically requires:

1. Ensure that there is alignment of process indicators in the log-frame, narrative and budget activities.
2. Provide details on any intellectual property rights that might be generated during the course of the project and, in such case, plans for their management.
3. Indicate which contingency plans is arranged for in case the project does not meet the timelines set for technical development, clinical studies and product registration/regulatory issues
4. Feedback on the project's progress provided by the proponent regularly so that M&E can be done appropriately. Provide a clear progress reporting plan to be incorporated into the project.
