

Executive Board Meeting
23rd Session
4-5 November 2015
Kofi Annan Conference Room
UNAIDS Building
Geneva, Switzerland

Resolution n° 3

Malaria and Areas for Intervention: Accelerating adoption of innovative vector control tools

Having considered the analysis presented by the Secretariat during EB23, the Executive Board supports the need for UNITAID to focus strategically on "accelerating adoption of innovative vector control tools" with a view to securing a substantial impact on the Global Goals for access to malaria innovative vector control tools on a timely manner.

The Executive Board requests the Secretariat to launch appropriate calls for proposal within this Area for Intervention and to present progress on implementation to the Policy and Strategy Committee.

The Board's endorsement of this Area for Intervention has no budgetary implications.
